

Math Application Questions and Language Sheets Homework Schedule 2023 (Sept-Dec)

This school year, students shall receive Language Arts (LA) sheets (in September and October) and Math application questions (MA) to do for homework.

There will be two LA sheets per week for the first few weeks of the school year. This is to ensure that the basic grammar rules have been covered and the expectation is that your child shall then be able to use the grammar rules correctly in their subsequent work (extra practice may be needed at home). These rules have all been covered in past years and should be considered review. *The work is due **the next day** that your child sees me* (see schedule below). I shall check that the LA sheets are completed and then post the correct answers on our website in the "Homework" section. This is to encourage autonomy as a learner. There will be evaluated tests on the grammar rules, in class.

The Math sheets will be given out on a Tuesday and be due a week later, on the following Tuesday (even if the children are with Mme Ysabelle that day). {Of course, students may hand their completed homework in earlier than the due date}. If a student is absent on the due date, the work is due the day they return.

Please note that other application questions will also be done in class.

There will also be other homework apart from what is listed here.

LA1 will be given on September 5, 2023, to 611 and September 6, 2023 to 612.
