

Comparing Temperatures on Thermometers

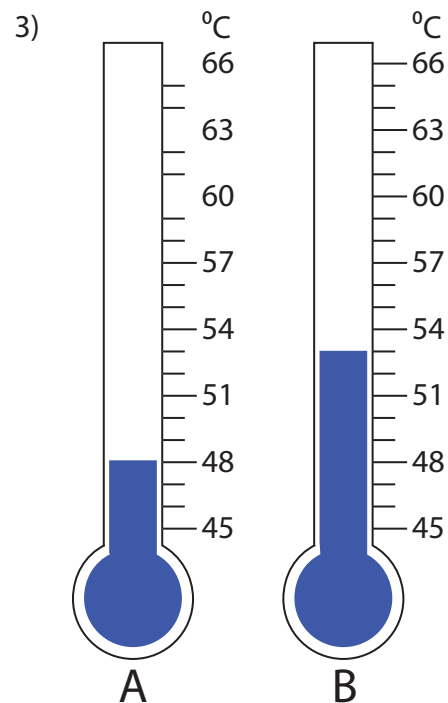

Read the temperatures on each pair of thermometers and check the correct observation.

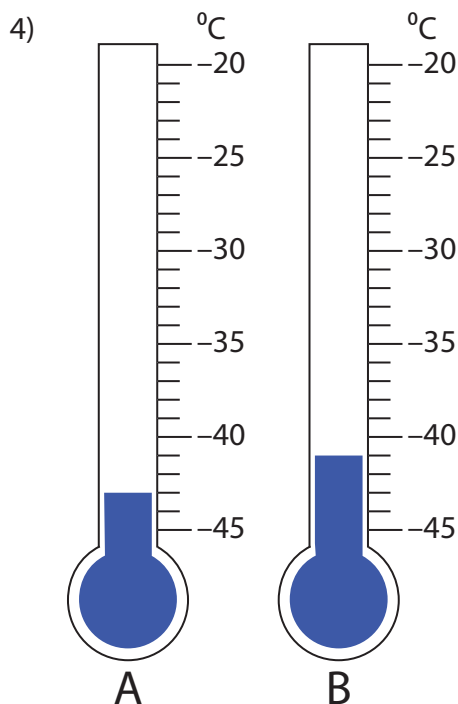

- B reads a lower temperature than A.
 A reads a lower temperature than B.

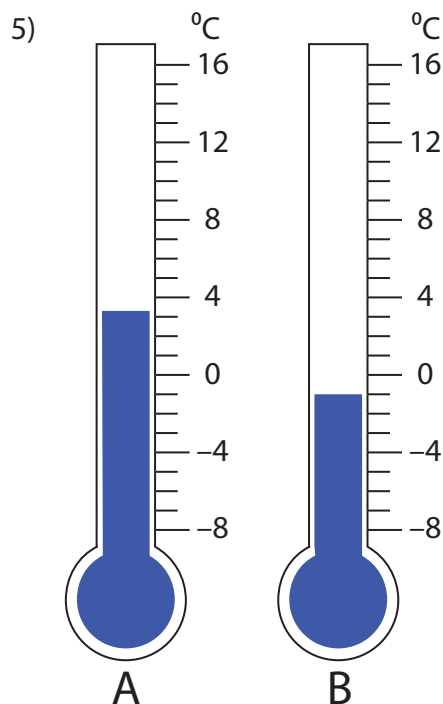

- B reads a lower temperature than A.
 B reads a higher temperature than A.

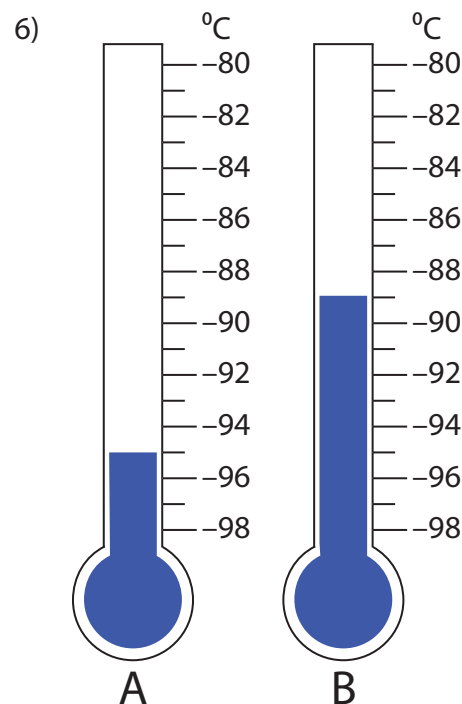

- B reads a higher temperature than A.
 A reads a higher temperature than B.

- B reads a higher temperature than A.
 A reads a higher temperature than B.

- B reads a higher temperature than A.
 B reads a lower temperature than A.

- A reads a lower temperature than B.
 A reads a higher temperature than B.
